Dear Nyak,

Thank you for setting up a meeting so that I can learn about progress on the study that has taken place since our last meeting. I look forward to learning a great deal. I also look forward to meeting Craig again.

I think that meeting at 10:30 on 14 Sept will work out well. Also, I did note a small possibility that I would be out of state on that date, which I think now is quite small. I am part of an international team advising the Russian organizers on the coming APEC meeting in Sept in Vladavostock. While, I was asked to be available to attend, at this date it is unlikely, in my opinion. Instead, I have a firm invitation for a post meeting in Moscow, in mid October. This is preferable from my perspective so that I can stop in Iceland and forward my research projects there, scoot to Stockholm and on to Moscow. That's more information than you wanted, I know.

In summary, I have put the 14th, 10:30, on my calendar and look forward. Verna, I assume that you will arrange a room, etc. Nyak, of course, I will be happy to meet any of the other possible participants you mentioned.

vince
